- *ACTIVESHELF*
What makes it different?
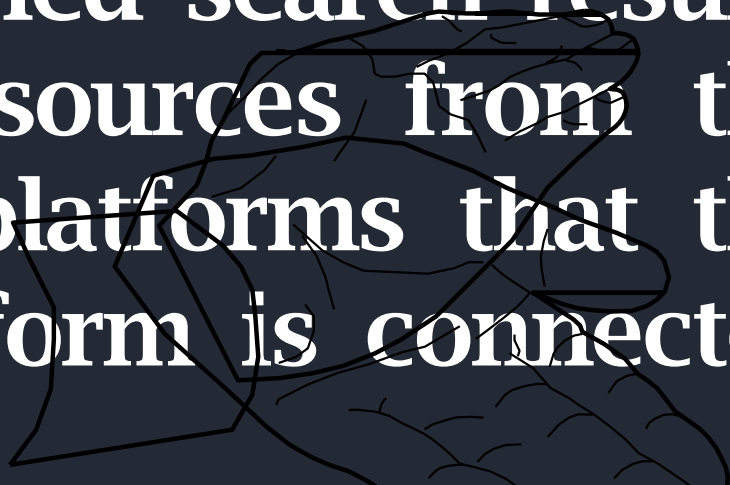

BESPOKE CUSTOMIZATION

Activeshelf can be customized with features and functionality, that align perfectly with specific needs and library requirements.

UNIFIED SEARCH RESULTS

Activeshelf offers Unified Search Results to patrons. With one search interface and unified search results users can get resources from the various content platforms that the main library platform is connected to.
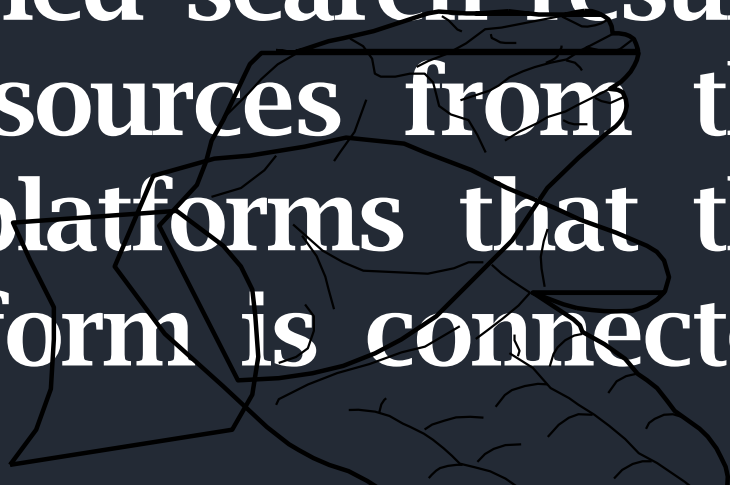

EASY MEMBER REGISTRATION AND AUTOMATED WORKFLOW

Libtech has designed Activeshelf to revolutionize library operations by offering automated workflows. The software helps streamlines and simplifies routine tasks, thereby saving valuable time and resources for library staff by also allowing users carrying out self registration and onboarding on platform from any location or device.

UNIFIED   SEARCH   RESULTS

Activeshelf offers Unified Search Results to patrons. With one search interface and unified search results users can get resources from the various content platforms that the main library platform is connected to.

24/7 DEDICATED TECHNICAL SUPPORT

You will barely experience challenges using Activeshelf but if you do. The technical team is always ready to troubleshoot your problems and get you right on track.

Thank you for your attention!
