Automation Success Stories

CUSTECH LIBRARY
Confluence University of Science and Technology, Osara

ONLINE PUBLIC ACCESS CATALOGUE (OPAC)

Installation Challenges

- Technical issues during installation
- Data migration difficulties

Training Challenges

- Lack of user familiarity with Koha
Need for comprehensive training programs

Solutions:

- Regular training sessions
- Support from the Koha community
- Koha version documentation

Challenges in Implementation

Best Practices:

- Thorough planning and assessment before implementation
- Collaboration with stakeholders

Effective Training:

- Hands-on training sessions
- Continuous support and follow-up

Ongoing Support:

- Regular updates and maintenance
- Leveraging community resources

Recommendations for Successful Implementation

- Koha LMS offers comprehensive solutions for library automation
- Success depends on proper implementation and training

Conclusion
